*"Let us bear your load"*

August 10, 2007

To whom it may concern:

Siracusa Moving & Storage, Inc. considers our selves an agent that stays on top of the cutting edge of Technology. We strive for perfection in all aspects of our daily processing.

I had the daunting task over 18 years ago to find a vendor that we could put our confidence in to provide our organization with the tools that were necessary to get the job done. After much research, I made a decision to select Compusource as our vendor of choice. I have not been disappointed by our selection.

I find Compusource to be very competent in all aspects of the moving industry from Order Entry to Billing, payroll and driver payments as well as dispatch and many others not to mention their desire and compassion to stay on top of the evolutionary changes that occur from day to day.

Basically I feel that if there is a need for specific items Compusource can pretty much cover it all. Their staff is very friendly and always willing to go above and beyond the call of duty to satisfy the customer.

If I were to make a decision again in the future, I would not have a problem selecting Compusource as our business partner!

Sincerely,

Sharon L. Grezel  
Office Manager/IT Manager

Siracusa Moving & Storage, Inc.
