Compusource Holds Successful Customer Conference

Compusource held its bi-annual Customer Conference November 1-3, 2006 in Los Angeles, CA. This again proved to be a great combination of both fun and learning for the Compusource clients. Beginning with a Welcome Reception on November 1, customers were able to meet with the Compusource sales, support and R&D personnel as well as the other VanS users throughout the 3 days.

November 2nd began with a morning General Session which was followed by a series of breakout sessions the remainder of the day as well as throughout the following day. The sessions offered for VanS were:

- Operations Visual Suite
- Balancing with General Ledger
- VanS Document Management & Productivity Tools
- Order Entry Visual Suite
- VanS Tips & Tricks and System Management
- Network Support & Security
- SalesTrak Visual Suite & Rating Interfaces
- VanS Open Forum
- VanS Software Update Class
- MoveTrak Visual Suite
- Forms Designer Visual Suite

The conference program also included a brief bio of each participant which documented the fact that the average tenure of a Compusource employee is 15+ years. There was a notebook provided to each attendee that included copies of all presentations. Adobe Acrobat documents (.pdf files) of these presentations are available for purchase of \$100 by those that were not able to attend.

The conference concluded with a Customer Awards Luncheon honoring those customers attending that have been with Compusource 15 years and longer. Based on the comments heard during the conference as well as the written evaluations, the Customer Conference was a great success. We hope those unable to attend will be able to be with us in 2008.

We are currently considering a one day Seminar in Atlanta for those VanS customers that were not able to attend the Customer Conference. We plan to hold this the first quarter of 2007 at a hotel near the Atlanta airport. Please look for more details about this in the next few weeks. All VanS customers will be invited.
